Dear Mr. Kingston:

We have received and reviewed your amendment to notice UTU-68038 and we have found the amendment to be incomplete. The mining claim serial numbers belong with the claim information, not in the upper right-hand corner of the amendment. Only those claims which will have surface disturbances on them should be included on the amendment. These claims appear to be the Burnham Placer Claim and the Von Elm Placer Claim--both located in the E 1/2 of Section 3.

The names of all the operators and claimants should be included. According to our information, there are six claimants, not just one.

In the legal description, only the portion actually being affected should be included in the amendment, which in this case would be the E 1/2 of Section 3. According to our files, no mining claim exists in Section 32, T.20S., R.8E., which is a state section.

A sketch map of the areas to be blasted should be included with the amendment showing the extent of the on-the-ground disturbance on sites A and B in relation to the access road.

If you have any questions, please feel free to contact Neil Simmons of my staff at 801-637-4584.

Sincerely yours,

PENELOPE J. SMALLEY
